5th of June is world environment day. Its summer time and you have much time at hand so why don't you plan to celebrate environment day just as you would plan a birthday celebration for a dear family member.

My plan:

- 1) Write a letter to your friends inviting them to be a part of the environment day celebration.
- 2) Write a story in about 100 – 150 words on the earth's glorious past to its ruin. Narrate this story to the members of your society.
- 3) We usually have a backdrop for a celebration, we could do the same for "The Environment Day" create a mini poster about "Reducing, Reusing and Recycling" on an A4 size paper.

Have a great Environment Day!!!
